To whom it may concern:

I have been a teacher the last 13 years in Los Angeles, California and I feel that Bhagwan Shree Rajneesh, who is also an exceptional teacher should be allowed to continue as a resident of the U.S. As a man, who is enlightened, I feel he has given me much wisdom & knowledge through his books and teachings, that I have passed on to my students. His value is immeasurable & he exemplifies what I believe about freedom & self-expression.

I would be very sad to see him asked to leave, so I am in full support of his continued stay in America.

Sincerely,
