To whom it may concern,

I'm writing this letter to share with you my view that Bhagwan Shree Rajneesh is an exceptional person, whose presence in your country can only serve as an inspiration to many people in all professions.

I have studied Psychology/Education in Germany for 6 years and graduated with a diploma at the University of Freiburg in 1979. While writing my thesis I came in touch with the meditations and teachings of Bhagwan Shree Rajneesh and a total new approach of psychology has been opened up for me. After my graduation I travelled to Poona, India and became one of His disciples.

Coming back to Europe I have held several responsible positions in social work. During this work I have felt a tremendous difference in my approach to people's personal problems and needs.

Having come to experience my own personal process far deeper through the guidance of Bhagwan Shree Rajneesh, his words, silence, meditations, and therapy programs than I ever did through my studies. I am far more able to present myself as a caring and understanding person in whom my clients can entrust their confidence.

During my visits to Rajneeshpuram I can witness the growth and the development of a city whose community has based its relationship to work, creativity and to each other on this same principle of caring and sensitivity.

This must indeed be the new psychology for a healthy man in this troubled world.

Yours sincerely,

*Ma Prem Irmtraut*
