To whom it may concern,

I have been a disciple of B.S.R. since 5 years and a participant of the S. A. W. C. and that was a wonderful opportunity for me to be transform through His presence and silence. I must say it is difficult to communicate with is hapening through His silence with words but I found it even more powerful than His words. "Words are from the mind and silence from the whole being. His presence and silence bring me back to my own self with such a nourishing feeling of love at the same time. I'm so grateful for it!.. I hope that a lot of people will be able to experience a new way of being and be transformed through this communion with the Master.

I have been living in many centers
and it have been always very beautiful
but Rajmushpurnam has a very special
quality, so much peace and tranquility
all around me, so much harmony
and love between sannyasins.

BH. is here and through His presence
and silence all the sannyasins from
all over the world can disappear
into His oneness and become part
of the ocean.

And I hope that you will be able
to appreciate the gift that BH. is
for the U.S.A. and let His light
shines on you.

Ma Deva Vajra
