TO WHOM IT MAY CONCERN

I come from a family of well-educated and "respectable" people - Phi Beta Kappas, architects, a rich uncle who was well-known in society. I have a college degree myself and have had an all-American family of my own, at one time. None of this has given me the fulfillment or aliveness I have found living around Bhagwan.

Imagine working (we call it 'worshipping') 12 hours a day and having plenty of energy left over to play at night. Imagine living in an environment where people are so sensitive that every feeling you have is reflected on their faces. It's intense and beautiful to live like this and none of it would be possible without Bhagwan's presence. Just as it feels when a beloved friend of yours comes into your house - there is a new presence and energy there - that's how it feels here with Bhagwan in our valley. His essence penetrates everywhere.

If you've ever read any of Bhagwan, if you can really hear Him, He has a depth of understanding of human beings that no philosopher or intellectual can come close to.

He understands us better than any psychologist can ever hope to. He exudes love and we get drunk with it - just come and see the light in the eyes of the people here, and see His eyes!

Something extraordinary is happening here and it will be foolish to miss it because of the fear. When a person starts to open through Bhagwan he gets closer and closer to his potential, and what used to be "effort" and "work" becomes light and easy and pure pleasure.

Imagine if business people and politicians and cynical people would become like this, what kind of world we could have - a thriving and happy planet.

It's time to appreciate this gift that has come to us.

Love.
