To Whom it may concern.

I am a medical general Practitioner with a practice in Schloß Wolfsbrunn. I worked in an Hospital for 3 years and then, in 1980 I went to Poona to see and learn from Bhagwan Shree Rajneesh.

My work with Patients after that has changed a lot and has got a totally new dimension. Bhagwan's vision of illness of the body, his immense knowledge about human psychology and so-called psychosomatic diseases, his spiritual healing power and his great insight about suggesting for example soft and natural birth to reduce the birth trauma have helped me immensely in my work as a Doctor.

The experiment which is going on in Rajneeshpuram, Oregon, the explosion of a new city where exceptional work has been done and is still happening is just another expression of the outstanding ability and Creativity of Bhagwan Shree Rajneesh.

It is certainly a great gift of tremendous value for any country to have such a man benefiting in an economic, cultural, religious and general welfare.
