

8/8/83

To whom it may concern,

I became a sanyassini in July 1982. It does not concern me that Bhagwan is "in silence" & that I have never heard him speak other than through videos and cassettes. His message is available through these recordings and written in books, but most of all is conveyed through the energy field that surrounds him & extends to his sanyassinis.

It seems silly to me to question Bhagwan's credentials as a spiritual leader because he does not give public lectures: Jesus Christ, Mohammed, Buddha etc are accepted as spiritual masters & they are not talking at present either!

Yours faithfully,

ma Paritosh Ajeer.
