To whom it concern.

I'm a dicitple of Baghwan shree Rajneesh.

and living in his Budhafield the stad Rajneesh.

To life in a Budhafield means for me work on my one growth together with other dicitples, and with the help from an enlightened master like Baghwan.

I have been in Rajneesh puram with other 15000 dicitples.

Every day - moment He was giving so lot of love that my heart was opening.

For my this love to get from the Blessed one means to give the love to give to other people.

Other 1500 people do this also everyone takes the love into the world.

And more people will pick up this love so this means more love and peace into the world.

For me Rajneesh puram is so clean that for Baghwan it will be this is it.

stad Rajneesh
