To whom it may concern,

In this letter I like to express my gratitude to Bhagwan Shree Rajneesh for the way he did come into my life and the meaning that it has to me.

The realistic approach of integration all day work and meditation leading to work as meditation gives work a special quality.

For me as worker in the field of technical research and development is this of immense value. To the point of samnyas it took about five years. In this period I never saw Bhagwan but the fact of recognition has nothing to do with a person, only with the for me obvious truth that I met, indicated in the unique way as Bhagwan can do this.

With love,
