

Genova, 8.I.83

To Whom it may concern.

Dear Sir,

I've been sannyasin for over four years, getting from this experience immense joy and inner peace.

In my everyday life I keep contact with my Master Bhagwan Shree Rajneesh by a dayly meditation and by transforming my job (I work as agent for an italian Company) in worship.

It is not so easy to be religious and to act religiously in the world of business, that's why I spend my vacations in Oregon every year, to meditate in the presence of Bhagwan and to feel the pure energy that surrounds Him.

I've been in Rajneeshpuram in July '83 and in July '82, considering it a model for collective life.

It is surprising the activity carried out in one year: the dam, the roads, the electric power station, the farming; everything made possible by the amazing enthusiasm over life and work which His religious teachings awakes in us.

Sincerely,

Ma Viren
