

Milano 29/7/83

Dear Sir, I am sad again since four years; I meet
Bodhi in Poona, India in December '79. Bodhi in His
Commune, His Buddhafield, are for me the place where I
grow up faster than other places, and share together
experiences of a new style of life; and where I feel
religious life spreading inside and outside me, blossom.
From here in Milano, Italy, far away from His physical
presence, I am, I feel in contact with him through the
more intense moments of the daily life. In the
morning, during work, eating vegetarian food in small bits
in to be creative in taking care of what I am doing,
of where I am living, of who is with me, in the evening
in the joy, in the freshness. And in all the unpredictable
situation which Him prepare for me every day, for help
me to grow, really grow.

I had been in Rainier Park, Oregon, this July -
was a big joy to see my master after 2 years.
good health in a very beautiful place ~~with~~, happy
with all His big red-orange family.

Was a thirteen-days, but a long spiritual training
on life, how it is, how it can be.

And my personal contact with Him: a relationship
with a Master, a Zen master. A friend He is,
a Master, someone who push who help me to be
positive, totally positive; who help tremendously
to grow, to understand what life is.

To see Him, just to see, is a deep relation
heart to heart, full of meaning. And it gave me
a clear mirror to see at which point I am

if I'm growing or wasting time.
What I get as teaching this time, is to become
finally totally responsible for my life, and to be
creative as much as I can, and to do totally,
with all my energy and love what I do.
And the day after the coming back to Italy
I get a job and a new house in Milano.
My work, house painter, electrician in my work
and part of my meditation; the living with people
also. The effort to live a true life is my prayer.
And to greet Bagwan and His work to the world.
Therapy, ecology, love, work, meditation,
celebration.

To me Bagwan Sree Ramesh is a Buddha, like
Jesus, like Zen masters, like Mohamed and
thousand of master Bodhisattvas; He can help
thousand millions (is already happening) of people
in their spiritual growth.
Especially now, the whole world need people
like Him to show, to realize what we are
doing at ourselves; and to change what is
wrong, what is robot like, all that is stopping.
The man been to be free.

with the hope Bagwan living
in peace in the States
