

Ma Sarito
Miasto Rajneesh Neo-Sannyas Commune
53010 Frosini (Siena)
Italy

Miasto, 30 July 1983

To whom it may concern.

I am 25 years old and living in Toscana, Italy, in a commune of Bhagwan Shree Rajneesh.

My first contact with this spiritual Master was in 1980, while travelling through India. All my life I have been searching - searching for humanity, for inner and outer peace, for a living alive. In the political movement I was fighting for human life, for a different consciousness in the people. In my profession as a social pedagogist I was working with schizophrenic people and my goal was to re-integrate them into reality. After many years spent working in these movements I was quite frustrated. Nothing had really changed.

In 1980 in the commune of Bhagwan Shree Rajneesh in Poona for the first time I felt the people there were really alive. Through this they had an inner peace I had always been searching for. I discovered that the change had to begin in myself. Through Bhagwan's teachings and the inner growth program of His commune (meditations, work and groups) I learnt to get to know myself and to be honest with myself and with others.

Now since three years I am a disciple of Bhagwan Shree Rajneesh. I visited many of His communes, I have been in Rajneeshpuram, Oregon, where He is living and working, twice. Specially in His presence I feel what it means to be with a spiritual Master. In complete silence I experience His energy transforming my whole being.

I feel that Bhagwan is a spiritual Master who can help the whole humanity to live in peace, and for this I feel very thankful to Him.
