

TO WHOM IT MAY CONCERN,

At a point in my life
where nothing, no job, house, friends,
could satisfy me anymore,

I joined lessons in T'ai Chi Chuan.

T'ai Chi is a way of moving softly, gentle, very slowly.

The movements balance you
in your will, thinking and feeling.

You get centered.

I started to enjoy living again.

A flower was not what it seemed to be anymore.

A world of love opened in me,
it surrounded me,

I was part of it.

This "world" can only be experienced,
not taught by books or words.

I read a book: Tantra, of Bhagwan Shree Rajneesh.

He was pointing to this state of being,
this consciousness.

And though it can not be said,
through my heart I recognized Him
as my own inner being.

It was like coming home.

He went Home,
to his innermost core.

He is fulfilled.

I became sannyassin at march 5th 1983.

I love Him,

I love Me,

I meet Him in flowers and trees,
wind and water.

I can not say how he helps me
but He's allways here.

EXHIBIT "A-2637"

I rejoice,
I'm going home.
