To Whom it May Concern,

I became a disciple of Bhagwan Shree Rajneesh on the 18th of June, 1982. I decided to become His disciple after experiencing His meditation technique's.

I felt that I had discovered the light of my life. This light is becoming brighter day by day. He taught me that this light has been hidden deep within me.

Bhagwan's ultimate message is beyond words. I think that He is imparting the final stage of His teachings through His silence, right now. His message is most important and very delicate.

Y. Miyagawa

Sincerely

Yoshihiro Miyagawa.
